

KBC and Hyperion Systems Sign an Exclusive Multi-Year Reseller Agreement

London, UK – (9 March 2010) – KBC Advanced Technologies plc (KBC) and Hyperion Systems Engineering Ltd (Hyperion) announce the signing of an exclusive multi-year reseller agreement with Hyperion Systems to resell our Petro-SIM™ and KBC SIM™ reactor simulation models within the territory of Russia and the CIS countries.

“This partnership reflects our continued commitment to our customers in Russia and the CIS countries,” commented George Bright, KBC CEO. “Combining our leading simulation software with Hyperion’s proven leadership in supporting software solutions to a broad range of business sectors in the region will help our customers achieve *NextGen* Performance.”

Symeon Kassianides, Hyperion Chairman and CEO stated, “I am delighted to see our experience and investment in Russia working as a platform for growth, with the addition of KBC’s world class solutions to our portfolio for the regional upstream, midstream and downstream petroleum and gas market”

About Hyperion Systems Engineering Ltd: Hyperion Systems Engineering Ltd (www.hyperion.com.cy) is the world’s leading independent provider of systems engineering solutions and services to the process industries. A privately held company with 16 years’ experience in the Oil and Gas, Petrochemical, Chemical, Pharmaceutical, Food and Beverage, Power, Water and Metals industries, Hyperion has a well-established reputation for groundbreaking innovation, helping clients to drive down costs and dramatically increase operational efficiencies. Hyperion is certified to the ISO 9001:2000 standard, by EuroCert. For more information, visit www.hyperion.com.cy or www.hyperionsystems.ru.

About KBC: Since 1979, KBC consultants have provided independent advice and expertise to enable leading companies in the global energy business and other processing industries manage risk while maximising the value from their assets.

In times of economic uncertainty and increasing environmental pressure, the KBC proprietary methodologies and innovative tools guide clients’ key strategic decisions, prioritise and implement initiatives that maximise return on investment, and improve operational performance.
